

## Higher Education Reform (HER) Network

### 17<sup>th</sup> conference on Higher Education Reform

To be held June 21 – 23, 2023 at the University of Glasgow (Scotland, UK)

#### Call for contributions

The conference, originally scheduled to take place in September 2020 but postponed because of the Covid pandemic, will focus on the contributions by Higher Education institutions to the Sustainable Development Goals (SDGs), as defined by the United Nations.

Contributions are invited that explore and suggest the multiple roles Higher Education can or should play in realizing these Goals, and the policies and reforms needed to enable Higher Education Institutions to contribute to them.

How does Higher Education's mission and work relate to the SDGs? How can Higher Education contribute to the trans-sectoral and transdisciplinary efforts urgently needed for the survival of the planet and its inhabitants, and for creating healthy and socially just living conditions for all people? What changes are needed in the ways the principal missions of Higher Education Institutions are presently defined, organized and financed?

The 2023 Higher Education Reform Conference will provide a forum for discussing the relationship of the Sustainable Development Goals (SDGs) and Higher Education Policies and Reform. The objective is to provide a platform for Higher Education researchers, policy makers, and leaders to assess and explore ways in which higher education can promote progress towards the SDGs, and contribute to sustainable development and social justice in all countries.

HER conference @ the University of Glasgow (June 2023)

The Conference will be held in Glasgow, under the auspices of Centre for Research and Development in Adult and Lifelong Learning (CR&DALL), based in the School of Education at the University of Glasgow. Founded in 1451, the University of Glasgow is the fourth oldest university in the English-speaking world and one of the top 100 of the world's universities.

The Glasgow conference will be the 17<sup>th</sup> in a series of International Conferences on Higher Education Reform, which have taken place annually since 2003. The first in this series was held in Vancouver, Canada, organised at The University of British Columbia. Subsequent conferences took place in Asia (Tokyo, Shanghai, Tianjin and Hiroshima), Europe (Vienna, Dublin, Berlin and Ljubljana), and North America (Mexico City, St. John's, Pittsburgh and Baltimore).

### **Call for proposals**

Like the preceding conferences, the 17<sup>th</sup> IHER Conference will focus on comparative analysis and discussions of policy and reform of Higher Education. The conference will support an open exchange of views in a collegial environment, based on empirical research and policy analysis. As with previous HER conferences, a selection of papers and panel presentations will be published after the conference.

### **Three types of proposals are invited:**

- Papers (single or dual authorship);
- Panels (between three and five panellists);
- Poster presentations (particularly welcome from early career researchers).

**Proposals** (up to 400 words for papers and poster presentations, and up to 800 words for panels) should describe the issue(s) the presentation will address as well as the conceptual or theoretical framework guiding the research or policy questions and the type of data for the analysis.

Proposals must indicate the names, affiliations and mail address of presenters (in case there are several presenters, the address of the corresponding presenter). Submissions will be peer reviewed and the result communicated to proposers within two weeks of submission.

**Proposals should be sent via email to [submissions@highereducationreform.org](mailto:submissions@highereducationreform.org) by January 15, 2023.**

### **Organization**

Details about accommodation, conference fees and schedule can be found shortly at the conference website: <http://highereducationreform.org>
